Razertip® Electric Trimmer

The SS-D10 is Razertip's workhorse, with many features not found on any other burner. **Dual handpiece** capability allows you to have 2 pens plugged in at the same time and change between them at the flick of a switch. This is particularly useful if your work calls for frequent handpiece changes as it saves time as well as wear on the connectors. The SS-D10's extra low-end temperature adjustment allows you to turn the heat down further if the "1" setting is still too hot.

Made in Canada

Wash Test Indicators for HYDRIM® washers

The HYDRIM Wash Test Indicators (WTIs)
have been designed to provide
two-dimensional validation of HYDRIM
washing efficacy. It is a simple, easy-to-use
indicator that ensures instruments are
effectively and consistently
cleaned with HIP
Cleaning Solution.

SafeMask®

Procedure Earloop Face Masks

FreeFlow®

with Air Space™ Technology

Breathe Easy. See Clearly.

Stay Comfortable.

Innovative contoured pleats create a unique pocket that allows air to flow freely. Added comfort features include a fog-free nose strip and soft, strong, ample-length earloops.

ProBlock™ Disposable Bite Blocks

\$76⁹⁵
box of 100

The ProBlock™ is a disposable bite block specifically designed to greatly reduce the potential of cross-contamination between patients when using the panoramic x-ray machine. Each block is unit dose packaged, and is intended for single patient use only. 100 unit doses per box.

ADVANTAGES

- Greatly reduces the potential of cross-contamination between patients
- Packaged in individual unit doses
- Allows clinician to open each dose in front of patient to ensure freshness

FLEXI WEDGE

Flexi Wedge is strong elastic material and inferior concavity allows it to conform to patient's anatomical irregularities while also providing greater tooth separation.

Directional retentive arms
hold wedge in place.

Starter Kit (004-0461200) **\$169.95**

Contains: 100 wedges (ea. of Green, Orange & Blue), 50 wedges (ea. of Red & Purple)

Refills Pack 100/pkg---Specify:

premium^{plus}™

DISPOSABLE 60° TURN RECIPROCATING LATEX FREE PROPHY ANGLES

NO SPLATTER - The centrifugal force generated by a normal 360° turn prophylaxis angle results in splattering and mess. Our NEW 60° turn reciprocating prophylaxis angles eliminates potential splattering of prophy paste, blood and saliva, keeping the prophy paste in the cup where it belongs.

NO HEAT - Our NEW 60° turn reciprocating prophylaxis angles build up much less heat during use, assuring a smooth, cool treatment for your patient.

EFFECTIVE - Due to less heat generated during use, if necessary more pressure may be applied to remove stubborn stains.

FASTER - Thanks to our innovatively designed NEW 60° turn reciprocating prophylaxis angles, the prophy cup or brush can be used continuously on the tooth surface, saving valuable chair time.

SAFER - The rotational motion of traditional prophylaxis cups and brushes can cause laceration and bleeding of the gums. Our NEW 60° turn reciprocating prophylaxis angles provide a much safer and pain-free prophylaxis treatment.

Disposable 60° Turn Reciprocating Prophylaxis Angles LATEX FREE 100/pk
